CRYSTAL PEAK.

A SMALL MOUNTAIN COMPOSED OF WHITE QUARTZ--OLD TIME LAND-MARKS.

The passengers on the Donner Lake stage road used early in the morning to pass through the town of Crystal Peak, and when they asked for the original bearer of the name were pointed to the highest of the many mountains in sight. The impression thus given was erroneous, as the peak can not be seen from the town and only an occasional glimpse of it can be had from the most favorable part of the road. It lies about six miles northwest from the towns of Crystal Peak and Verdi, on the divide between Dog Valley and Long Valley. It is not by any means a high mountain. There are towering summits on both sides of it. It is only remarkable for the material of which its frame seems principally to consist, which is a

VERY WHITH AND BEAUTIFUL QUARTZ.

The whole top of the hill crops out in a ledge of pure white, with spots of crystalized quartz, some of it in layers of pointed octagonal pieces and all degrees of less distinct formations. Some one has sunk a shaft from the very top on a streak of copper stains, but the developments proved too small to tempt a great outlay. A tunnel has been run in the side of the mountain a couple of hundred feet from the top, but it has been abandoned and is now nearly full of rubbish at the mouth. It is said to cross streaks of beautiful crystals. The ledge on top of the hill covers nearly half an acre of ground, and must at some time have been much higher than at present judging from the amount of debris scattered far down the mountain on every side, which gives it

A VERY HANDSOME APPEARANCE

as seen through the tall pine trees which cover it. The ledge is supposed by some to be on the line with the rich crevice which the Peavine mines are on, but it seems to be entirely barren. The mountain is about 2,300 feet above sea level and affords quite an extensive prospect. Snow covered mountains rise to the west, culminating in Mount Lola. Long Valley stretches far to the north, with the white bed of Alkali Lake in the foreground. South is Dog Valley, a basin overflowing with splendid timber—the old stage road winding up the ridge which separates it from the Truckee valley, and the smoke of a saw mill soaking through the tree tops at our feet.

"GREAT AUSTRALIAN DISCOVERY.",

A Hoax on Its Travels.

[From the New York Journal of Commerce.]

Since the production of the celebrated "Moon Hoax" several clever things have been done in the same line. One of the most realistic and startling of these was the pretended account, in a New York paper, of the escape of all the wild beasts from the Central Park menagerie. Another neat piece of Munchausenism was the report, also published in a New York paper, of the discovery of a great canyon in Siberia where the mastodon and other antediluvian monsters were found browsing around, having been somehow left over in that place by the cataclysm which destroyed all the rest of their contemporaries. This particular hoax had the honor of a serious reference in the address of a book-learned professor at a meeting of the American association for the advancement of science. He gravely alluded to it as among the most important discoveries of the year. Later on, New York journalism gave reins to its imagination and produced the story of a wonderful invention in Australia whereby sheep, cattle, hogs and all living things could be deprived of animation and shelved or packed away for an indefinite period and then revived with all their fat on them and their faculties unimpaired. The process was very simple. A certain vegetable decoction was injected beneath the skin of the animal. This suspended the circulation of the blood. He could then be laid away in a refrigerator, where the temperature was kept just low enough to arrest decomposition. The hypodermic injection of a vegetable antidote brought the creature to life again at pleasure.

Such is the amusing hoax which, having been born in New York and failed to attract much attention at the time, now appears in a newspaper of the antipodes, the *Courier*, of Brisbane, Australia. Thence it was copied into the London *Times* without a word of comment or dissent. Its appearance in the great English journal has given it such a start as it never had before. It is now going the mighty round of the universal press. Several papers in New York, misled by the London *Times*, have copied it in whole or part, apparently without suspecting its true character.

The *Queenslander* has itself exposed the "freezing hoax," in the following paragraph:—

"The excitement caused by our publishing an account of a new process, purporting to be the discovery of an Italian naturalist named Rotura, has caused us to sift this matter very closely, and our investigations have led us to the unwelcome conclusion that we have been hoaxed.

Banks of Grasshoppers.

We learn, says the Downieville *Messenger*, that the grasshoppers are still working southward in Sierra Valley. Strang, Miller and others, are making preparations to cut their hay crop as expeditiously as possible as soon as the danger becomes imminent. Twenty years ago the valley was devastated by a similar army of locusts. Then, as now, they traveled southward, turning aside for nothing. We are informed upon the best of authority, that in places where fallen trees impeded their march, they banked up to a depth of three feet, forming an inclined plane up which marched the advancing host. On the north side of dwellings the insects banked up and died, until the stench became so unbearable that the occupants were obliged to shovel them up and cart them away. At Dave Newman's ranch the hoppers are so numerous that they have filled the creeks and fouled the water to such an extent that the cattle will not drink it, and he has been obliged to drive his stock to Webber Lake. The outlook is very discouraging, but it is hoped that the destruction may not be as universal as is feared.

Dr. Mintie's Nephreticum.

DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street, Portland.

C H Woodward & Co., Druggists, corner First and Alder street, Portland.

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephreticum as the best Kidney and Bladder Remedy before the public."

All Druggists keep these medicines.

For all derangements of the Liver,
Use Dr. Mintie's English Dandelion Pills.
For Billiousness and Dyspepsia,
Use Dr. Mintie's English Dandelion Pills.
For Fever and Ague,
Use Dr. Mintie's English Dandelion Pills.

Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended. jan6-6m

Sir Astley Cooper's Vital Restorative: The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is NOT a quack nostrum, and produces results that are wonderful.

Why will you suffer? Send to A. E. Mintie, M. D., No. 11 Kearney street, San Francisco, for the Restorative, and be cured. Price, $3 per bottle. Four times the quantity, $10. Try a bottle. Dr. Mintie treats all private diseases successfully.

BOUNTIES TO AMERICAN SHIPPING.

The idea of fostering American shipping interests by means of bounties from Government has again been revived by Blaine in a recently published letter. The New York *Nation*, in reference to the matter, expresses the same opinion that has frequently been uttered by the GAZETTE in discussing the same subject. The article in the *Nation* meets our own views so well that we republish it entire:

"Mr. Blaine has written an elaborate letter to the New York Chamber of Commerce in reply to an invitation from them to address them in explanation of the cause of the decline of the American shipping trade. The sum and substance of it is that American ships disappeared from the ocean partly owing to the depredations of the rebel cruisers during the war; and their restoration is prevented by high taxation, and want of such encouragement from our government as foreign ships receive in the shape of subsidies and postal dues. He would therefore pass a general law offering a fixed rate of subvention to all persons putting American ships into the carrying trade, under certain conditions, between fixed points. The reason he gives for singling out this trade for special encouragement is that we must depend on it for our supply of seamen and for our capacity to produce fighting ships in case of war. His scheme, of course, will not bear examination from a purely economical point of view. The business of carrying goods at sea differs in no respect economically, from the business of carrying goods on land. If foreigners are willing to carry our goods to market at a lower rate than we can do it ourselves we are the gainers as purely as if they came here and carried freight for us on a railroad at lower rates than those now charged. If they can only do this by the aid of subsidies from their own government, these subsidies are really granted in large part for our benefit; in fact, they cheapen transportation for us. Instead of being annoyed or aggrieved by them, we ought to be thankful, as they enable some of our products to reach markets from which they would otherwise be cut off. There is, therefore, from the economical point of view, something almost ludicrous in the proposal that our government should spend money in enlarging the carrying trade when it is already overcrowded and the loss in it is borne voluntarily by foreign governments."

PYROTECHNIC PATRIOTISM.

During the recent celebration of the Fourth, fires broke out in several towns in Nevada, but fortunately in no instance was there any property destroyed. But there were some narrow escapes. A large firecracker thrown between two buildings in Virginia nearly caused a serious fire. A high wind prevailed in all parts of the state upon the Fourth. Had a fire once gathered headway in any of our towns it could hardly have been got under control. No large fires are reported from other states as the result of this year's celebration. But in other years some most destructive conflagrations have been directly caused by bombs and crackers. The general escape this year is surprising and a matter of thankfulness.

The connection between noise and patriotism is hard to trace. Celebration by means of explosions, din and racket, would appear to savor of barbarism. When is considered the danger to human life and to property which the familiar forms of acoustic patriotism occasion, the wonder is that gunpowder demonstrations of rejoicing are any longer permitted in civilized communities. Certainly the men who own goods, houses or buildings, are those upon whom the burden of the customary celebration usually falls. They pay for one day's detonations by an increased yearly rate of insurance on their property. The merchants and real estate men are the most patriotic class in the country, if "paying the piper" can be considered patriotism.

Now that the excitement attending the Fourth has subsided, it is a good time to consider the propriety of prohibiting fireworks within the town limits. On the approach of the Fourth at Bodie the Marshal visited all the dealers who had been in the bomb and cracker business, and induced them all not to import any fireworks this year. Even the Chinese trade complied with this request. Reno should have an ordinance that would suppress this dangerous nuisance of bombs and crackers. The northern boundary of Reno is not half a mile away from the business portion of the town. Those who wish to indulge in such fireworks would find it no hardship to make their demonstrations out of town. It is to be hoped that some action will be taken in this matter before another Fourth comes round.

NESTS OF DISEASE.

Cleanliness is next to Godliness. A dirty angel would be a sick one, and a filthy heaven would be a hospital. One of the severest labors of city officials is the suppression of filth. This duty should engage the attention of the officers of Reno at once. There are families living in houses that contain piles of dirty clothing and old rags, which are becoming soaked with typhoid and scarlet fevers. There are cess pools which receive the drainage from kitchens and from privies which taint the air for acres. There have been children sacrificed to bad drainage and dirty beds in Reno. There are other babes now struggling with death from the same cause, and this in healthy Nevada and in the nineteenth century. There are hog-pens in this town which smell, on hot days, like the city of Cologne—which Coleridge said had "twenty distinct stinks and a thousand smells." A GAZETTE reporter this morning followed up a scent to the hog pen back of the Wm. Tell House. He found the floor covered with bones and meat, potatoes, cabbage and filthy green puddles of water. Decaying meat and vegetation are the surest and speediest means of spreading disease, and in hot weather the severest means should be used to prevent such deposits in the heart of town.

EDITORIAL NOTES

The Idaho *Democrat* says: "It is well known that hundreds of tons of red fish could be caught every year on the Payette and Salmon lakes. These red fish are equal in flavor, if not superior to the salmon of the Columbia." We would like to know more about the "red fish." Possibly it is some new species of the salmon family. The *Democrat* might do something for the cause of science by publishing an accurate description of the fish, giving number of rays in fins, color, size, weight, etc. The "red fish" may prove to be land-locked salmon.

Prof. Colgrove, the aeronaut, and Miss Emma Allison, correspondent of the N. Y. *Graphic*, made a balloon ascension from San Francisco on the Fourth. They came down in the Bay two miles from the Alameda shore, and were dragged over the water until finally thrown out of the balloon in a marsh. Miss Allison was badly cut about the head, but neither was severely injured.

The county commissioners to-day awarded the contract for a fireproof vault of the first class to Hall's safe and lock company. The sum to be expended ought to place the county papers forever beyond the reach of fire. We hope to see a good job done, one which will be satisfactory to all concerned.

Not long ago the sports of Sacramento substituted bats for pigeons, in trap-shooting. The last novelty in shooting comes from Idaho. The Boise City *Democrat* says that the pigeons in that region having become very scarce, jack rabbits were to be substituted at the shooting match on the Fourth.

Charles H. Shinn, editor of the *Horticulturalist*, is now in Nevada county, and is writing a series of interesting letters to the *Bulletin*.

Two fires were started in Winnemucca from firecrackers on the Fourth, but were extinguished before much damage was done.

The wind on the Fourth carried away the flag staff over the Ophir and Combination shafts, and blew into strips the flag on Mt. Davidson.

The *Leader* says that Tony Pastor doubled the usual prices of tickets on the Fourth, and in consequence lessened his profits.

The Gold Hill *News* says that meals were scarce in Carson on the Fourth, and insinuates that slim dinners are not unusual in Carson.

A soldier at McDermit, Idaho, fell from a horse on the evening of the 18th of June, while intoxicated, and broke his neck.

A Chicago paper tells of a poor man who went to Leadville and took out $10,840 in five weeks. He did it all alone, and his only tools were a pack of cards and a seven shooter.

The circumstances surrounding the death of the infant son of Antinia Pocerdeo, who was found in a garden near its home, last Thursday, with its throat cut, remains as much a mystery as ever. The remains were buried in the Catholic cemetry yesterday afternoon, says the San Francisco *Bulletin*.

The *Record-Union* says that a Sacramento man wrapped some catfish, caught a few hours before, in damp paper, placed them in his ice box on the ice, and forgot them for three or four days. When taken out and placed in a pan of water nearly all gave signs of life.

The work of laying the track of the Southern Pacific railroad through Arizona, which has been suspended for the season, will probably not be resumed before November. The suspension is due to the inpracticability of performing the work on the road during the intense heat of the summer months.

The Grass Valley *Union* says an extensive field and forest fire prevailed in the vicinity of Pleasant valley, Nevada county, in the latter part of last week. A large extent of country was burned over, and much timber and undergrowth was destroyed. The people of the neighboring country turned out in full force and fought the fire day and night until it was brought under control.

The San Francisco *Post* says that the Western Electric Light Company is experimenting on the use of electricity in the reduction of refractory ore. Quite a quantity of ore treated by electricity will be crushed and assays made to determine the value of the process. T. V. Julien, superintendent of the Consolidated Esmeralda mine has charge of the experimentary work.

The enormous ferry-boat Solano, intended for transferring cars between Martinez and Benicia, and now on the ways at Oakland Point, will be completed during the early part of this month. Her length over all is 424 feet; extreme width, 116 feet; her breadth of beam is claimed to be greater than that of any vessel ever built. A full description recently appeared in the GAZETTE.

The Marysville *Appeal* says: From a recent rich washing of gravel in the Nevada and Golden Gate Hydraulic Mine at Sucker's Flat, in this county, about $900,000 in an aggregate has been taken out from the comparatively small amount of ground yet washed over. Pat Campbell, superintendent of the mine, conceived the idea to sink to the bed rock cuts with lateral branch tunnels opening into the main channel, with the result above stated. It is said by old miners and those who have seen it that the gravel is literally spangled with gold.

BULLION YIELD OF THE COAST.

A Decline of Fifty Per Cent.

[S. F. Bulletin.]

The thirty-six mines reporting to the *Bulletin* for the fiscal month of May show the following gross bullion yield:

Gold	$836,700
Silver	1,022,900
Lead	35,700
Total	$1,884,600

With the exception of February, this is the lightest yield this year, and the amount of silver is $50,000 less than for that month, and from $80,000 to $350,000 per month less than the other months this year. The gross product for the first five months compares as follows: Totals 1878, $21,405,800; 1879, $10,659,000. The gross yield this year shows a falling off of 50 per cent. This is mainly due to the decreased production of the California and Consolidated Virginia mines. The total product of all the mines reporting to the *Bulletin* office for the first five months of the year is as follows:

Gold	$4,496,700
Silver	5,839 300
Lead	323,000
Total	$10,659,000

The amount of silver produced in the same period last year from substantially the same number of mines was over $11,000,000.

An Exciting Race.

BOSTON, July 5.—The professional scullers' race, three miles, was won by Evan Morris of Pittsburg. He came in nearly a mile ahead of Ten Eyck. For an eighth of a mile nothing like this race was ever seen on the river, Morris and Ten Eyck passing each other three times. Both rowed about the same number of strokes to the minute. Finally Morris secured the lead and kept it all the way home, coming in about a half a mile ahead of Ten Eyck. Time—26:36¼.

Three flour loaded teams left Winnemucca for Austin about the middle of June. They got caught in a snow storm and in three days made only 15 miles.

A Singular Accident.

Eureka Sentinel,

But one accident occurred on the Fourth, and that was of a singular character. Jim Dean, our well known auctioneer, has been suffering from a sore leg for some weeks. On the afternoon of the Fourth, while sitting on the porch of his house, a fire-cracker exploded at his feet, and in an instant his limb, which was dressed with chloride of potash, a most inflammable material, was enveloped in flames. In his endeavors to extinguish the fire his hands were severely burned. His limb suffered most, and presents a sickening appearance. We had hoped to chronicle Jim's convalesence in a day or two, and regret that he has met with such an accident.

John Thomas, of Reese River, is an unlucky man. Last week he dislocated his shoulder in lassoing a horse. On the Fourth a drunk clapped him on the shoulder and knocked the bone out of place again.

—The Tony Pastor troupe arrived frem Eureka last night, and departed for Virginia this morning.

—Elder Hawes, of the reconstructed church of Latter Day Saints, preached to three men and a boy at the court house yesterday afternoon.

—So long as the green flag of Erin flaunts in the breeze over the parapet of the Western hotel, so long shall the stars and stripes remain nailed to the highest battlements that frown over the office of the GAZETTE.

—A warrant was issued Saturday for a Chinaman who persisted in maintaining a hog-pen in defiance of the town ordinance and Caucasian olfactories. He was discharged upon promise of removing the nuisance.

That Swarm of Bees.

One day last week a swarm of bees alighted over the doorway of Bender's bank. They subsequently moved to the side of the building and took up their quarters among the timbers of the roof of the new building in course of construction beside the bank. They are flying in and out all day. It will not be an easy task to get them out. There will be much stinging and swearing when the attempt is made.

Scarlet Fever at Wadsworth.

A three year old daughter of E. Olinghouse is lying very sick of scarlet fever at Wadsworth. In consequence of her serious illness her father was unable to attend the meeting of the county commissioners to-day. Dr. Bergman, who has just returned from Wadsworth, says he knows of no other case of scarlet fever in Wadsworth.

Dangerous Place.

A well in the open lot which formerly was devoted to Courtois & Boyd's planing mill is liable to cause accidents. It is about 12 feet to the water and may be as much more to the bottom. There ought to be a platform built over it or a fence put around it.

Heard From.

The Great Arabian Alliance Balloon show (limited) has been heard of at Quincy. The Plumas *National* man went to see it on a dead-head ticket, and pronounces it "perfectly splendid."

A CHANCE FOR SPINSTERS.

A Good Husband and a Home in Dog Valley for a Woman of the Right Sort.

Fernando W. Rasselas is an honest farmer of Dog Valley. He has a good farm of several hundred acres, all his own. His home is comfortable and his ranch in flourishing condition. But Fernando is unhappy. His heart yearns for female companionship. There is no woman on his ranch. He feels the need of a good wife to share his joys and sorrows. In the midst of plenty, Fernando is sad and melancholy. His loneliness oppresses him. He sighs as he gazes on his broad fields of waving grain and feels that oats and barley alone cannot satisfy the human heart. Dog Valley, with its winding, shining rivers, its sylvan groves and singing birds; even Dog Valley, fair as the Vale of Cashmere, has grown wearisome to Fernando. Two score years have passed over his head. He "settled down" long ago to an Arcadian life, but did not marry first. Time is fast slipping away, and he wishes to see young Rasselasses playing around his knee before

HIS FIFTIETH SUMMER COMES.

All this and more did Fernando W. Rasselas confide to a GAZETTE reporter when last he left the rural paradise of Dog Valley to celebrate the Fourth in Reno. Fernando feels that he has no chance to secure a wife without the aid of the press. Dog Valley has no young women, and is not a place of feminine resort at any season. Therefore Rasselas made known his wants to the reporter, who promised to use his best efforts to procure him a helpmeet. Fernando is not hard to suit. He wants a woman, he says, "that will stick." "Not one of the kind that get up and dust at the first zephyr;" must be not over forty years old, able bodied, and a "rustler." Fernando has a strong prejudice against artificial attractions. "No shams for him," he says. The duties of the position will not be hard. Fernando's washing is not heavy. He says that he generally wears blue flannel shirts, and a white shirt on Sundays and when he comes into town. His dairy is not large Fernando is warranted sound and kind, and free from blemishes. The GAZETTE is desirous of seeing him united to some good woman who will cheer his lonely lot. Therefore it is hereby announced that sealed proposals for the hand of Fernando W. Rasselas will be received at this office up to noon of the first of August. Applicants will be required to furnish a sworn statement as to age and weight. Proposals must be made in the handwriting of applicants, and must be accompanied with photograph. Previous matrimonial experience not necessary. Color must be white. Mother must be dead. The advertiser reserves the right of rejecting any or all tenders. The strictest secrecy guaranteed, and all rejected proposals will be returned to the writers.

Exercising the Goat.

Last Saturday evening, while the air was warm and still, a GAZETTE reporter took a ramble into the suburbs. His attention was drawn to a small boy who was leading a milk white goat by a long, stout cord. The pretty, timid creature seemed reluctant to advance and required urging from its youthful guide. It was a pretty picture. The gentle, guileless goat, and the happy, light hearted boy. It reminded one of the beautiful pastoral poem of the "snow-white mountain lamb, with a maiden by its side." The GAZETTEER asked the boy whither he was going with his little playmate. The child smiled sweetly, and answered that he was taking Billy out "to exercise him." Just at the moment, little Billy saw his chance, and made a rush. The cord was pulled taut with a jerk, and Billy's friend and master was thrown off his feet and dragged in the dirt about ten yards by the gentle, guileless goat. Billy was making a return for kindness, and was exercising his master.

Peavine School.

The following list includes the names of those pupils whose average standing in scholarship and deportment is 90 per cent and over: Lottie Timblin, 99; Nora Timblin, 98. Nellie Enyart, 90; Clara Enyart, 95; Lulu Black, 94; Mary Hegan, 98; Flora Lake, 96; Frank, Enyart, 90; John Timblin, 94; Bennie Timlin 95; Walter Timlin, 92; Joseph Hasman, 99.

E. BARBER, Teacher.

Closing up Sundays.

It is generally known that sporting men are very liberal towards charitable objects, but they have not been regarded as leaders of "public morals." Such appears to be the case, however. They have all agreed to close their games in Reno on Sundays in the future in order to give themselves leisure to attend church in the evenings. Their example should commend itself to our business men.

"Pinafore" To-night.

The Amy Sherwin troupe will perform "Pinafore" to-night at Kimball's Hall. Both the Virginia and Carson papers have spoken very highly of their performances in those places. The opera is one that can be listened to many times with undiminished enjoyment. The attendance will no doubt be large.

Swarming With Trout.

Pyramid Lake is swarming with fish. Any kind of a fisherman can catch 200 a day in places where there were very few last summer. The trout are very fat.

THE BIG MEADOWS.

The Fourth at Lovelocks--A Generous Lawyer--The Humboldt Very Low--A Wind--Mill Prediction.

[From our own Correspondent.]

The Fourth here was a very quiet day. It was ushered in with the roar of a shot gun, that continued for half an hour with intervals of ten minutes. That most pleasing feature of the Fourth was absent—the small boy with his hands and pockets full of fire-crackers. The wind blew all day and nothing could be seen but clouds of dust, and all who ventured forth were entitled to the name of "Free Soilers." In the evening a drunken man fell from his horse and broke his leg just above the ankle. He was sent to Winnemucca this morning to the hospital, where he will have ample time to reflect on the error of his ways, while the county foots the bills.

The cause of justice languishes while our only lawyer is under arrest. His letter to a young lady, which was published in several papers, greatly encourages the young gentlemen. The substance of the letter was: "If you wish to live with me as my little wife, rather than pay me five dollars for assisting me when you wished me, then all right." They are anxious to know what answer she returns. If she closes the bargain there is to be a collection taken for the benefit of homeless bachelors. On reading the letter one young man was heard to soliloquize, "Cheap enough, cheap enough, by George; I'll try and raise five dollars by fall."

The prospect for an abundant harvest is not so good as was anticipated last spring.

There is a lack of water. The Humboldt has not been so low for many years, so says the oldest inhabitant. The failure of the Big Ditch Company to complete their work this spring disappointed many who own land that can be irrigated in no other way, but in view of the present needs it is fortunate no more was attempted. The time will soon come when wind mills will be seen in all directions. Water is very near the surface in nearly all parts of the valley, and seemingly an inexhaustible supply. The land is so rich that with plenty of water it may all be reclaimed from the dominion of the sage brush and grease wood, and made to blossom as the rose.

Lovelock, July 5th, 1879.

THE COUNTY COMMISSIONERS.

Proceedings of the Board To-Day—Street Grading—Safe and Vault for Court House—Bills Passed, and Other Business.

The board of county commissioners met to day, pursuant to adjournment. Present, T. K. Hymers, chairman; R. H. Kinney, John Bowman, district attorney, and Mark Parish, clerk.

Ordered that the V. & T. Railroad Company be allowed to grade Commercial Row, in front of the Depot hotel, and that the company be notified by W. R. Chamberlain.

An extension of time was allowed N. C. Hamersmith to build a chimney as required by law.

Bids for vault and safe for county recorder and treasurer were submitted. Only one bid (from Hall's Safe & Lock Co.) had been filed with the clerk within the time required by law. Bid No 4, from Hall's Safe & Lock Co., for $2400, was accepted. A communication from C. C. Powning, representing the Diebold Safe Co., was read, asking that time for filing bids be extended until 3 P. M. to-day. Not entertained and, ordered filed.

Over sixty bills had been approved up to 3:30 P. M. The quarterly reports of the various county officers were received and filed.

The commissioners meet to-morrow as a town board, and to finish unsettled business.

Aid For the Bristol Family.

A purse for the Bristol family, now lying sick with scarlet fever, was made up on Saturday. The amount subscribed exceeded $145. Dr. Dawson, in attendance, thinks that the present survivors will probably all recover. There was another death in the family yesterday.

The Change Made.

The change in the routes of Wells, Fargo & Co's messengers on the C. P. railroad, spoken of in the GAZETTE a few days ago, has been made, and Reno is now the terminus of the messengers' runs. The change went into effect Saturday night.

Mohawk Valley.

McMurtrey, from Mohawk valley, Plumas county, is in to take out a mowing machine. He reports the grasshoppers working up from Sierra valley towards Mohawk valley. He thinks they will make trouble among his neighbors.

The Bodies Recovered.

The bodies of the three men, who were suffocated in the Bullion mine during the fire last week, have been recovered. Owing to the foul gases in the incline, great difficulty was experienced in recovering the bodies.

Settled in Reno.

H. Meyerstein went below last Saturday night. He has been so well satisfied with Reno that he will close his San Francisco business and make Reno his home. His family will return with him.

Picnic to Donner.

A picnic is advertised in to-day's GAZETTE, which will go to Donner Lake next Saturday. The lake is a beauty, and a trip there would be a treat.

THE BATTLE OF COLOMA--CHILIAN LOSS, 1,500.

Port Au Prince in Flames and Whole Blocks in Ashes.

Public Meeting Suppressed in France--The Fire and Revolution in Hayti--The Panama Canal Scheme--Report of the Battle at Coloma.

The Bordeaux Meeting Interdicted.

PARIS, July 7.—The authorities have interdicted the great meeting at the Bordeaux Alhambra, where Blanqui was advertised to speak.

Port Au Prince in Flames.

KINGSTON, Jamaica, July 7.—Advices from Hayti say that Port Au Prince is in flames, that business is suspended and blocks of buildings are in ashes. The Custom House is closed in consequence of revolution.

The Panama Canal.

LIVERPOOL, July 7.—The *Courier* says that an agreement was signed on Saturday, on behalf of the original promoters of the Panama canal scheme, vesting their rights in De Lesseps as representative of the future shareholders of the Inter-Ocean Canal Company. Subscriptions for £750,000 in twenty pound shares, will be opened in London, Paris, Frankfort and New York simultaneously, in about forty days.

The South American War.

PANAMA, June 28.—The *Star and Herald* says that passengers from the south coast report a battle at Coloma and the capture of that point by the allied forces. The Chilian losses are stated at 1,500 killed. At Quilla Jua, on the river Loa, a small Chilian advance guard was beaten. Some were killed and the remainder were captured.

A Local Item via Ohio.

[Ashland (O.) Times.]

A few days ago a tramp, who was sparring his devious way along near Reno, conceived a brilliant idea for raising the wind. He knew that the Wells-Fargo stage would pass along that road in about half an hour, so he tore his shirt and pockets, rolled around in the dust, and finally tied himself, with much difficulty, to a tree. His intention was to relate to the stage passengers how he had been foully dealt with by highwaymen, and have a subscription to repair his losses taken up on the spot. The stage, however, took a short cut by a new road that day, and didn't go by at all. After waiting until dusk, the disgusted tramp concluded to remove his bonds, but, before he got the first knot loose, a grizzly came down out of the mountain and picknicked off the greater part of his left leg.

Justice Court Proceedings.

The case of the State of Nevada vs. Levi Seibers, occupied the Justice Court to-day. Seibers was arrested one month ago for selling goods without a drummer's license. He gave bonds for his appearance, and had the case postponed till to-day. A jury was empanneled, and the case has been hotly contested. A verdict had not been rendered up to the hour of going to press.

Tight Rope.

Professor Varia advertises a wonderful exhibition on the tight rope for this evening. The performance will take place at the Virginia street bridge. His rope will be stretched across the river at that point. The Professor will take up a collection on the ground.

Talk is Cheap,

And so are fine clothing, boots, shoes and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. we make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Remember the place, the White House, No. 19 Commercial Row.

Piano Lessons.

Master Bennie Barnett, late pupil from the Conservatory of the eminent composers and teachers, Professors Mansfield & Scott, of San Francisco, will give instructions on the piano. He has been intrusted with the tuition of Professors Mansfield & Scott's own pupils, which is certainly proof of his ability. He also adopts their method of teaching, which is thorough in the minutest details. For terms, etc., inquire at I. Barnett's dry goods store. june14

Sheriff's Sale.

BY VIRTUE OF AN ORDER OF SALE issued out of the District Court of the decond Judicial District of the State of Nevada, held in and for the county of Washoe, Suly attested the 18th day of June, A. D. 1879, on a judgment and decree rendered in said Court on the 16th day of June, A. D. 1879, in favor of William Hoffman and against Antone Rager and Sarah Rager, for the sum of Seventeen Hundred and Forty-one dollars, ($1,741) with interest on Twelve Hundred dollars ($1,200) from May 9th, 1879, until paid, at the rate of two (2) per cent. per month, and costs now amounting to One Hundred and Ninety-One 85-100 dollars ($191.85), and attorney's fees now amounting to Two Hundred and Thirty-nine 50-100 dollars ($239.50), all in gold coin of the United States, as in said judgement and decree specified. I hereby give notice that I will sell at public auction to the highest and best bidder for cash in hand, in front of the Court House door at Reno, Washoe County, Nevada, on

Saturday, the Twelfth Day of July,

A. D. 1879, between the hours of nine o'clock A. M. and five o'clock P. M. of that day, to wit: at one o'clock P. M., the following described real estate, or so much thereof as may be necessary to satisfy said judgment, accruing costs, and expenses of this sale, to-wit:

That parcel of land situate in the addition to the town of Reno styled Dunn's North Addition to the town of Reno, County of Washoe and State of Nevada, and described in the plat and in the survey of said addition to said town, as being that portion or piece of ground in the northwest quarter of the northeast quarter of Section Eleven (11), Township Nineteen (19), North Range Nineteen (19) East, Mount Diable meridian, lying west of the west line of the continuation of Sierra street, commencing on the north side of Fifth street (or the second street north from Plaza street), and running from thence along the west line of Sierra street to the quarter section corner on the north line of Section Eleven (11); thence along the quarter section line to the north line of Fifth street; thence along the north line of Fifth street to the place of beginning, excepting therefrom certain lands and the right to certain lands over which the ditch styled English Ditch is located, as in the mortgage mentioned and excepted, and also the following described real estate, to-wit: all that portion of the northwest quarter of the northeast quarter of Section Eleven (11) embraced within the following boundaries, to wit: commencing at the intersection of the north line of Sixth (6) street and the west line of Sierra street, and running from thence westerly along the north line of Sixth (6) street to the quarter section line between the northeast and northwest quarter sections of Section Eleven (11) thence north along the quarter section line to the north line of Section (11) where the quarter section line intersects with the west line of Sierra street; thence southerly along the said west line of Sierra street to the place of beginning, said lands being situated in the addition to the town of Reno, styled Dunn's North Addition, and being situated in the County of Washoe and State of Nevada.

W. A. WALKER,
Sheriff Washoe County.

Dated: Sheriff's Office, Reno, Nevada, June 19th, 1879. [td]

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to Ardeen Jones greeting: You are hereby required to appear in an action commenced against you as defendant by Jemima Jones as plaintiff in the Districtcourt of the Second Judicial District, and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons, (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant intermarried at Mono county, California, on or about July 29th, A. D 1873, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1875, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, wish or consent; that for more than a year next preceding the commencement of this action you, the defendant, have failed and neglected and now do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is and was not the result of poverty on your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays to be restored to her maiden name and for costs, all of which will more fully appear from the complaint which is on file in the office of the clerk of said Court at Reno, in said county. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, P. B. Comstock, have hereunto set my hand and affixed the seal of said Court this sixth day of December, A. D. 1878.

(SEAL)

P. B. COMSTOCK,
Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe county.

Nominations in stakes must be made to the Secretary on or before the 1st day of August, 1879. Entries for the purses must be made: for Monday's races on the Saturday preceding; for Wednesday's races on Monday, and for Friday's races on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominations in stakes must name to the Secretary in writing, which they will start the day before the race at 6 P. M. Horses entered in purses can only be drawn by the consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races.

The winner of the stake for 3-year olds to be run at Sacramento, Sept. 10th, to carry 5 lbs. extra; and of Friday's 3 year old there, 5 lbs. extra. Should the same colt win both of these stakes it shall carry ten lbs. extra.

All horses entering for State purses must be owned and kept in Nevada and California east of the Sierra Nevadas for six months prior to day of race.

Entries to all trotting purses will close Sept. 15th with the Secretary.

Five or more to enter, and three or more to start in all races for purses.

National Trotting Association rules to govern trotting races. Pacific Coast Blood Horse Association rules to govern running races, except as above.

Each day's races will commence promptly at one o'clock P. M.

All entries must be directed to P. B. Comstock, Secretary of the Society.

MINING NOTICES.

Assessment Notice.

JONES & KINKEAD GOLD & SILVER Mining company. Location of works, Pyramid Lake mining district, location of principal place of business, Reno, Nevada

Notice is hereby given that at a meeting of the Board of Trustees of the Jones & Kinkead Gold and Silver mining company, held on the 9th day or June, 1879, an assessment (No. 9), of five cents per share was levied upon each share of the capital stock of the corporation, payable immediately in gold coin to the Treasurer, at the Reno Savings bank.

Any stock upon which the assessment shall remain unpaid on the 11th day July, 1879, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on Monday the 11th day of August, 1879, at 2 o'clock P. M., of that day, at the Reno Savings bank, to pay the delinquent assessment, together with costs of advertising and expenses of sale.

By order of the Board of Trustees,
B. F. LEETE, Secretary.
Office, Reno Savings bank.
Reno, June 9th, 1879.

It is now introduced to the public of the Pacific Slope indorsed by the following certificates of the eminent Dr. S. Dana Hayes, State assayer of Massachusetts, and Dr. H. C. Louderback, of St Louis, Mo., both gentlemen prominent in their profession, and which is a guarantee to all buyers of its purity and quality.
I can show thousands of letters from private persons from all parts of the Union and Canada, to testify to its merits and the benefit it has afforded, as a family remedy and tonic.
Osburn & Shoemaker agents for Washoe county, will supply dealers at jobbers' rates by the bulk or case. may5tf
Also for sale by Pinniger & Queen, Druggists, and by John F. Myers, Druggist.

WHY STAY POOR?
Prospecting often Pays; Idleness Never.
The millions of the Comstock were a lucky find. Worthless looking rock is often rich in treasure. At Leadville a simple assay made millionaires of many. Other bonanzas where least suspected await the coming of some unknown man. Who is he?
At Virginia City, Nevada, assays for Gold and Silver are made at $1.00 per sample, by CONRAD WIEGAND, formerly the Supervising Assayer of the U. S. Mint at San Francisco.
The mail will carry ore-samples to his office for one cent per ounce.
Reports which may be relied on absolutely, come back by return mail, or results are telegraphed when ordered so.
All costs, delays and risks in remitting money are avoided by the purchase of our Dollar Remittance Tickets, which pay for all work done in our establishment.
We sell these prepaid tickets at a discount, when $5 worth or more are ordered at one time.
Small sacks for mailing ore samples also for sale at a nominal price.
